Time management

CAREER OBJECTIVE

Throughout my career as a front end developer I've emphasized the importance of scalable and well documented code. I enjoy working collaboratively but can also run with projects on my own. Excited about the prospect of joining a product-driven company .

PROJECTS

FashionNepa (E-commerce website)

Fullstack developer

2022 - current

- Designed responsive UI from scratch using React and Tailwind CSS.
- Integrated payment system like Stripe.
- Created REST API using Node.
- Build a fully functional shopping app .

Admin Dashboard

Frontend developer

2022

- Made the app dynamic by fetching data from API.
- Applied enhancements that improved web functionality and responsiveness.
- Added design and functionality frequently to improve the user experience.
